

DXC TALENT NETWORK

Model Visibility. Development. Discovery.

Your entry into the DXC model system.

DXC Talent Network is a model visibility, training, and talent sourcing platform created by DXC Models Management for aspiring and emerging models across Nigeria, Africa, and beyond.

It is for talents who want to start with DXC from their current location, build their model profile, receive development guidance, and become visible within a reputable agency system.

You do not have to be in Lagos to start.

Join the DXC Talent Network.
Build your profile.
Be seen by brands and clients.
Be positioned for matching opportunities.

BATCH DEADLINE: JULY 20TH, 2026

What is the DXC talent network?

It is a wider model platform where aspiring and emerging models can enter the DXC system, receive development resources, build their model profile, and become visible for talent sourcing opportunities.

As a DXC Talent Network member, your profile can be organized by location, category, look, and model type, making it easier for DXC, brands, clients, and collaborators to discover suitable talents when briefs come up.

What your entry gives you

1. DXC Training Access

Access to the DXC online training platform, iModel e-book, MDRM digital guide, and model development assignments.

2. Talent Network Community

You will be added to the DXC Talent Network WhatsApp community for updates, guidance, mentorship conversations, and model development support.

3. Profile Development

You will receive the DXC Portfolio & Polaroid Guide and guidance on how to prepare your pictures, profile, presentation, and model materials properly.

4. Website Visibility Your model profile will be prepared for listing on the DXC Talent Network website page, giving you visibility to brands, clients, collaborators, and matching briefs.

Who this is for

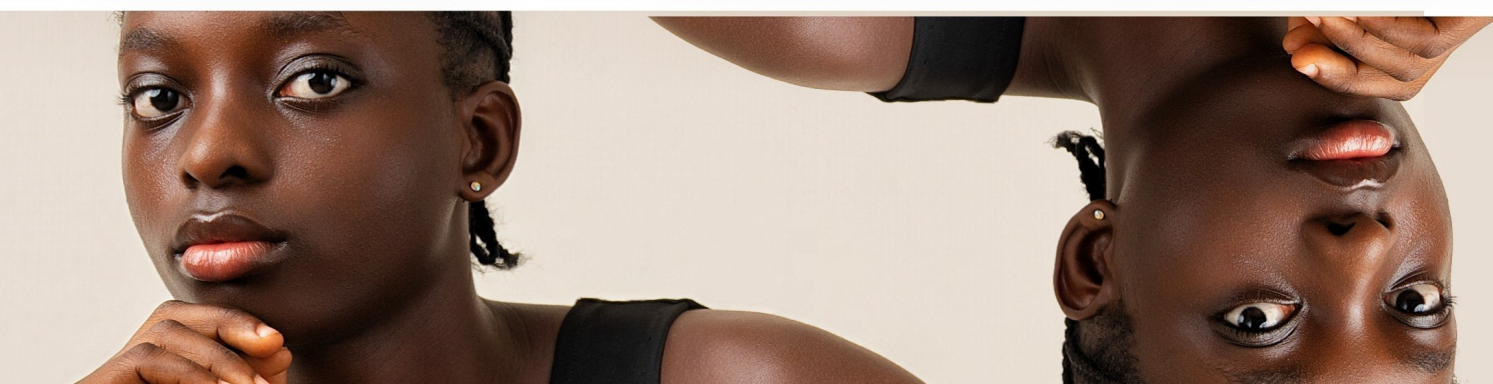

Fresh faces with strong potential

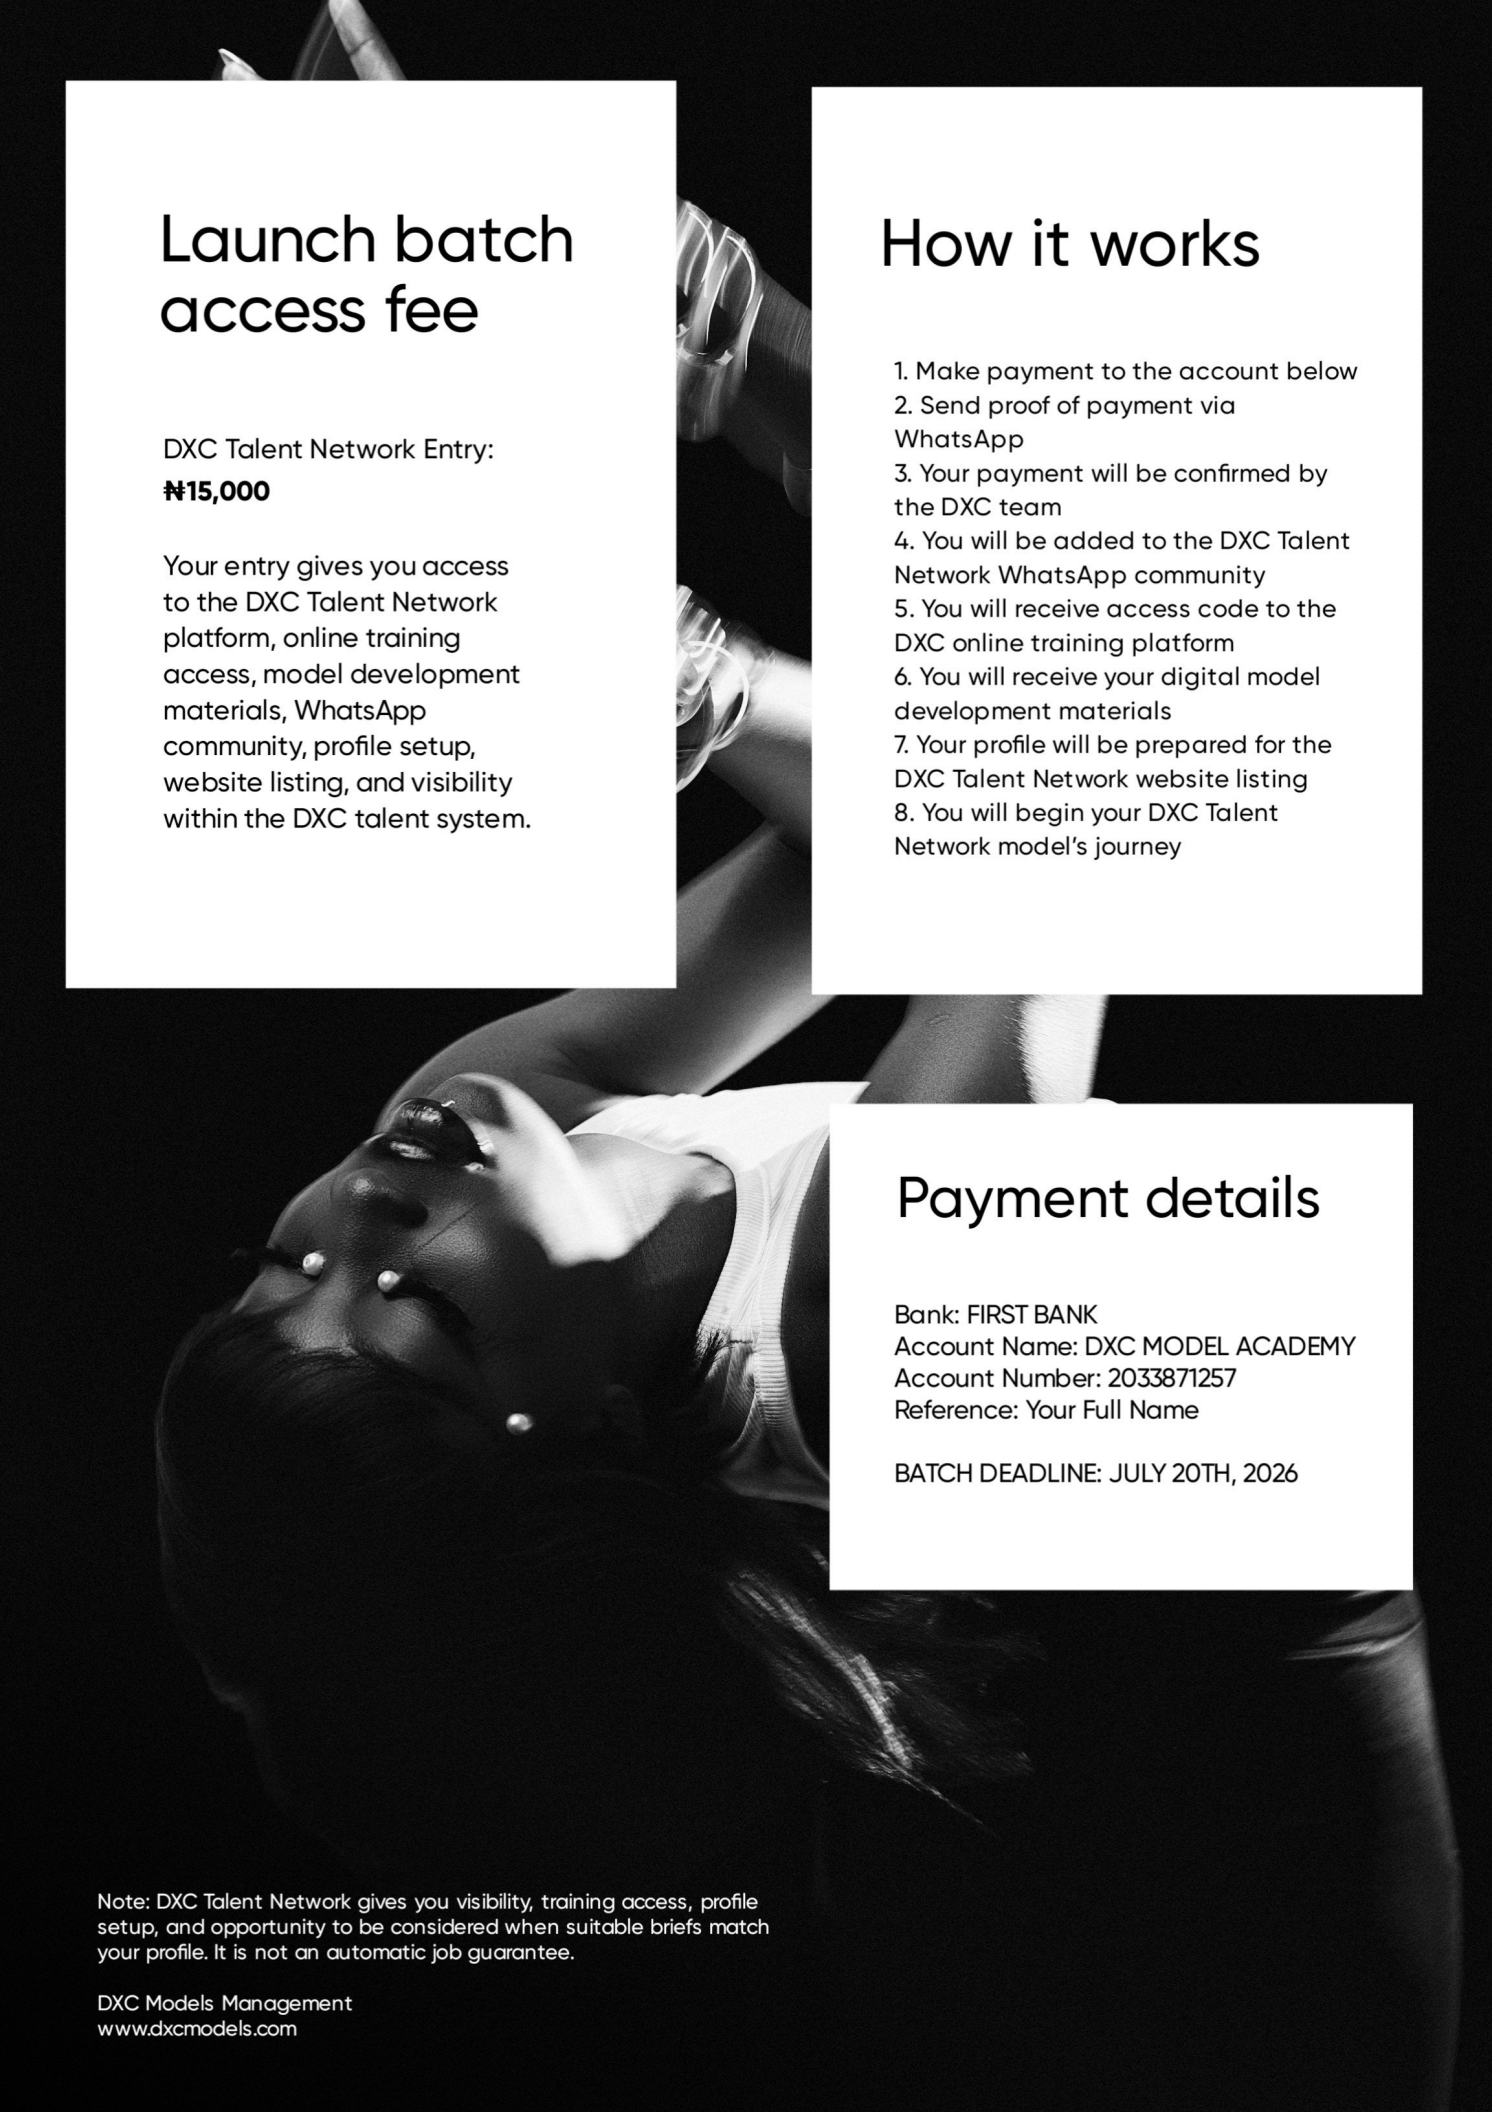

Commercial, fashion, runway, beauty, curve, and editorial models

Talents across Nigeria, Africa, and beyond

Anyone who wants to be part of a reputable model network and build visibility from where they are

This is your access point into DXC's wider model network.
